

"S" - Slider from Slide-Rite®

Designed for Flexible Packages Requiring Strong Top and End Retention Values

Enjoy the leading retention values in the industry with a special "S" feature that keeps the slider on in demanding applications. Low-scoring design reduces film slider abrasion, rib locations allow for easy gripping, and patented technology make for a high-performance package.

APPLICATIONS

- Pet Food
- Lawn & Garden

Slider Specifics

"S" design locks under the track profiles.
Rib locations make gripping easy.

Total Zipper Technology

Designed for High-Performance Applications

We'll help your product work hard on the shelf and beyond. Our focus on consumer safety and product integrity is unmatched. Put over a decade of slider experience to work for your product.

Features

- "S" feature locks under the profiles of the track keeping the slider on the package in demanding applications
- Low-scoring design reduces film slider abrasion
- Rib locations allow for easy gripping
- Patented technology for strong top and end retention values

Insertion Equipment

- SR-202 inserter models
- Ultrasonic or clip end-terminations possible (clip solution provides highest end retention values)
- Compatible with numerous Open-Fill-Seal and manually fed sealing equipment
- Patented Top-Fill Tamper-Evident design allows filling around the closure
- Slider integration technology available as part of OEM machinery or as a retrofit on HFFS and pre-made bag converting equipment

Stock Colors
